

Ajit Gurav

Artificial Intelligence & Machine Learning Graduate | Python | Machine Learning | SQL
Kagal, Kolhapur, Maharashtra 416216 | 7058217886 | agurav079@gmail.com

INTRODUCTION

Artificial Intelligence and Machine Learning graduate with a strong foundation in **Python, Machine Learning, SQL, Data Analytics, and Data Structures**. Experienced in developing academic projects involving data preprocessing, machine-learning algorithms, and agricultural applications. Familiar with **Pandas, NumPy, Matplotlib, classification, regression, and recommendation systems**.

EDUCATION

AMG College, Kolhapur B.Tech, Artificial Intelligence And Machine Learning— CGPA: 7.6/10	Parsing
D.Y. Patil Polytechnic, Kolhapur Kasaba Bawada. Diploma, Computer Science and Engineering — 80%	2021-2024
S.Y. Mane HighSchool, Kagal. SSC (10th) — 85%	2020-2021

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript

Frontend: React.js, Next.js

Backend: Node.js, Express.js, MongoDB, JWT

Core: Data Structures & Algorithms, Full Stack Development, REST APIs

EXPERIENCE

Intern, Qualitas Techno Solutions – Kolhapur, Maharashtra	June 2023-Aug 2023
- Built an IoT-based proximity detection device using Arduino and Raspberry Pi, achieving up to 95% distance detection accuracy in real-time testing. - Programmed real-time alerts and distance sensing in C - Integrated sensors and deployed on a prototype for public safety applications	

PROJECTS

1.TaskMind — AI-Based Desktop Task Assistant

Technologies: Python, Artificial Intelligence, Machine Learning

- Developed an AI-based desktop assistant to help users manage and organize daily tasks efficiently.
- Implemented intelligent task-processing functionality using Python and AI techniques.
- Designed the application to interpret user inputs and perform task-related operations.
- Integrated automation features to simplify repetitive task-management activities.
- Focused on creating an interactive desktop application combining AI capabilities with practical task management.

2.Virtual Mouse Using Hand Gesture

Technologies: Python, Computer Vision, OpenCV, Machine Learning

- Developed a virtual mouse system that enables users to control computer operations through hand gestures.
- Used computer-vision techniques to detect and track hand movements through a camera.
- Implemented gesture-based controls for mouse actions such as cursor movement and clicking.
- Applied real-time image processing to recognize hand positions and translate gestures into system commands.
- Designed the application as a touch-free human-computer interaction solution.

ACHIEVEMENTS

- Regularly practice Data Structures and Algorithms and competitive programming problems.
- Developed multiple full-stack and AI-integrated applications as academic and personal projects.
- I have certificate of offline internship in Qualitas Techno Solution.

SOFT SKILL

Problem Solving | Communication | Teamwork | Time Management | Adaptability | Quick Learning

LANGUAGES

English, Marathi, Hindi
